

SIX SENSES

HOTELS RESORTS SPAS

*We Create Places that **Reconnect** People*

Connections can be fleeting, and easily forgotten. To sustain them we strive to create memories. To be lasting they must be unique - not just a perfect martini, but a perfect moment. The most powerful memories are built from a shared moment of discovery or a shared moment of change.

*We Reintroduce People, to Themselves,
Others, and the World Around Them.*

In such a world human connections suffer. Using our intuition and applying it in the form of emotional hospitality removes these everyday barriers and leaves us open to bonding once again with the world, nature, others and ourselves.

*It Starts From Within,
From an Innate Belief in Doing Good.*

Born optimists, we see goodness and potential for the greater good in everything. We could not hope to care for our guests if we did not first care for our people and the communities we are part of.

*By Living for Today and
Planning for Tomorrow*

In our development, design and daily operations, we act responsibly to measure and minimise our carbon footprint and impact on the environment, all through active management of energy, water, waste, biodiversity, purchasing and chemicals usage. By giving Mother Nature a major say in everything we do, we protect the long-term future of our business.

*By Being Part of the
Local Fabric*

We don't build castles on hills. We are rooted in the local culture. Our architecture and building practices follow indigenous designs and utilise local architects and artisans. Our food comes from local farmers and fishermen. Our knowledge of the best fishing holes, diving spots, underground and pop-up clubs, happenings and restaurants is founded on our local relationships.

By Listening Rather than Talking

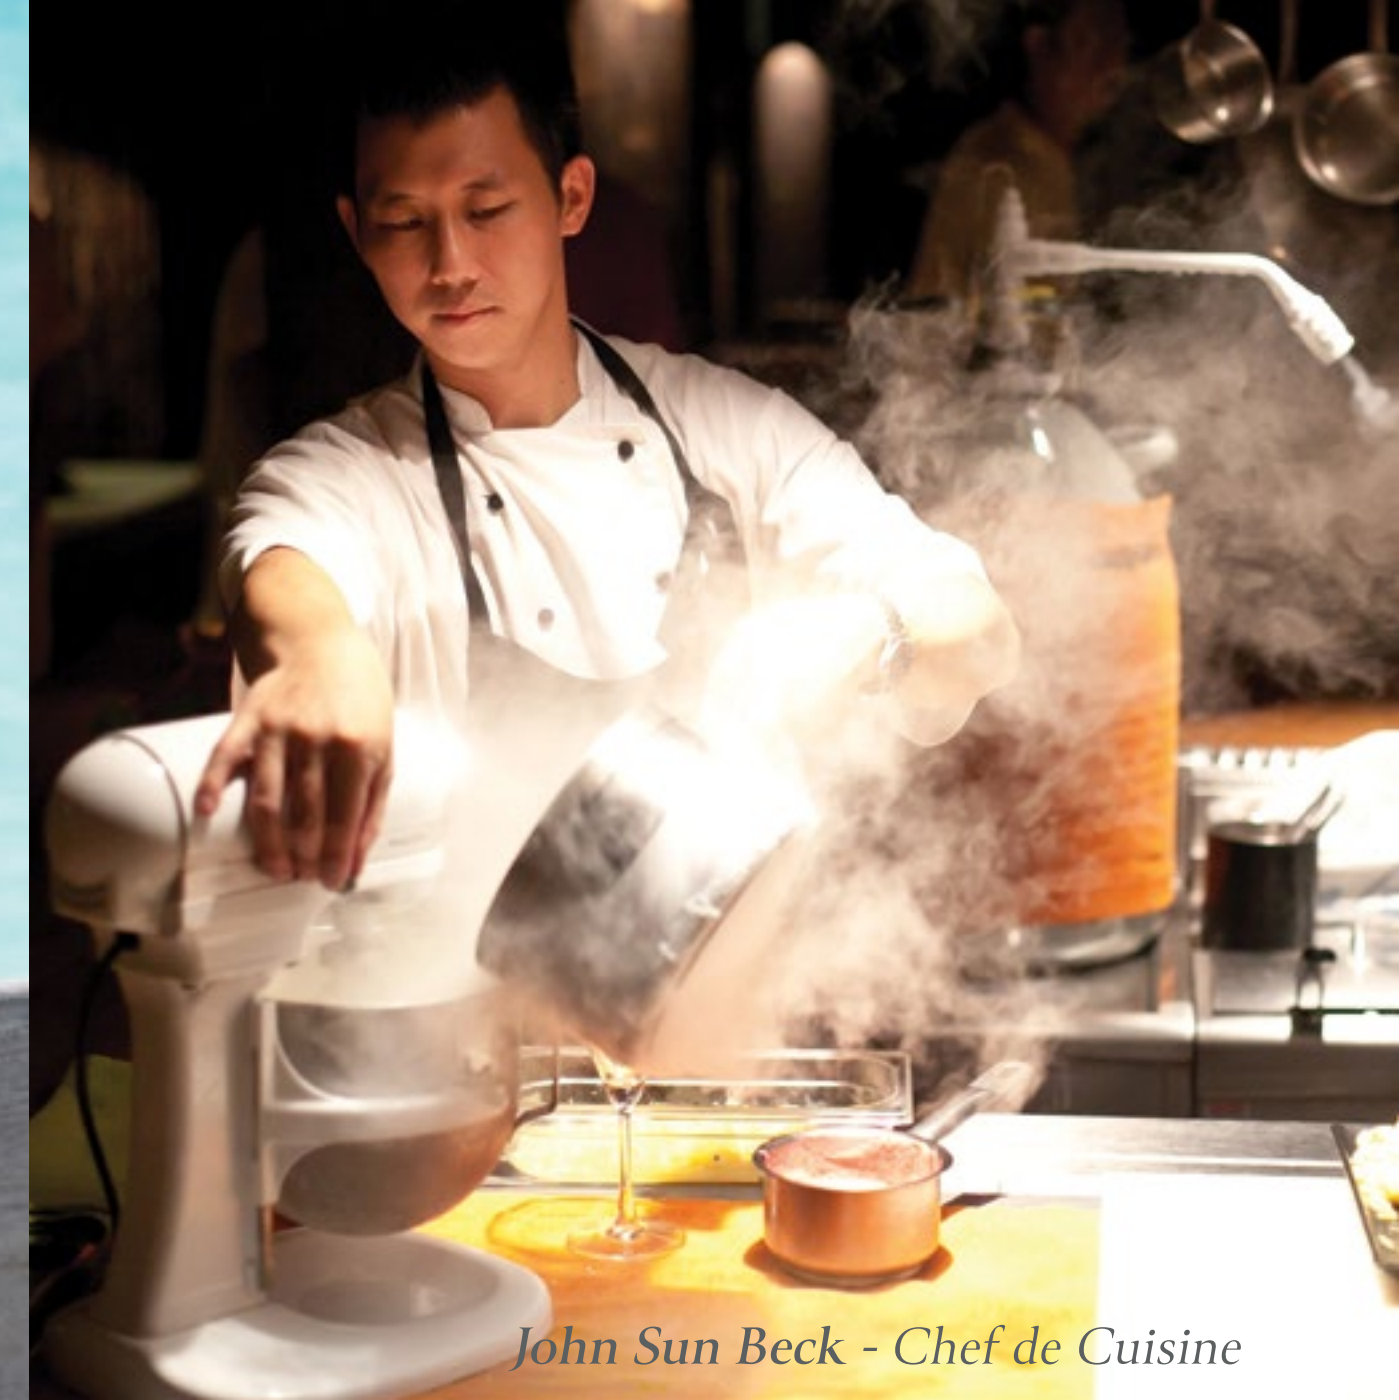

An approach to service that begins with empathy and a desire to understand the guest's needs and wants, both spoken and unspoken. Because we understand that people are driven by emotions, our intuitive approach to service means that every guest receives a richer and more personal experience.

And by Being Greater than the Sum of Our Parts

Our people hail from diverse backgrounds with a wide range of expertise and interests that extend beyond their daily roles. Our relationships with world-class spa practitioners, scientists and designers enhance our offering beyond the norm to surpass the ordinary.

Dr Parag - Astronomer

John Sun Beck - Chef de Cuisine

Lynne Robinson - Global Leader in Pilates

We Lead the Way on a Journey of Discovery

As pioneers we uncover new practices and build meaningful relationships with both modern and traditional practitioners. We work in partnership with leading experts to deliver high tech and high touch wellness programmes. The result is a unique layered approach to wellness we call Pioneering Wellness.

A man in a white uniform is performing a massage on a woman lying on a mat by a pool. The woman is lying on her back, and the man is kneeling over her, massaging her back. The background shows a large, clear blue pool with a wooden deck and a view of the ocean and mountains under a bright blue sky with light clouds.

*Delivering Wellness
From the Core to Lifestyle Change*

We hope for every guest to leave us a better person, physically, emotionally and spiritually. We focus on an approach that blends the old and the new, giving people the tools to create a better quality of life. We don't follow fads, but provide personalised coaching and regimes that push boundaries and deliver results.

By Being Refreshingly Human

Fun & Quirky aren't values that you would ordinarily associate with the hospitality and wellness business. But then again, we are anything but ordinary. Our curiosity and desire to explore allow us and our guests to discover unexpected ways to reconnect every single day.

We Craft Experiences, Not Just Menus

Inspiration doesn't start and end with a name on a menu, it is about creating experiences that have the power to change and stay with people forever.

We Create Memories Not Just Meals

Locally inspired and sustainably sourced, our cuisine is designed to appeal to those seeking a taste away from home. Ingredients come from resort gardens, local farmers, markets and fishermen and are served by our chefs and hosts from around the world in unique backdrops, transforming meals into unforgettable moments.
